Data for School Districts 20

Data for Counties, Development Regions, and the State ..... 42

Data for ECSU Regions .... 46

Data for Enrollment Size Groups ..... 48

Summary Statistics ..... 50

This edition of School District Profiles represents a milestone, of sorts; it is the fifteenth consecutive annual publication containing comparative enrollment, staff, and financial data on Minnesota's school districts. Although definitional changes have occurred during this period, it is possible to make close, if not exact, comparisons over the fifteen year period.

**Evaluation of Contents**

As in other recent years, this edition of Profiles is essentially unchanged in format. The first ten pages describe the report and provide a commentary and analysis of some of the more interesting trends. Definitions of the 38 statistical items are contained on pages 11 through 16. Pages 17 through 19 contain an alphabetical list of all school districts, their identification number, and development region. Also included is a state map showing development regions and their constituent counties.

The statistical pages begin on page 20. Pages 20 through 41 contain statistics for individual school districts, pages 42 through 47 for counties and development regions, pages 46 and 47 for ECSU regions, and pages 48 and 49 for districts aggregated by enrollment size. Pages 50 and 51 contain percentiles and high and low values for each of the 38 statistics.

**Notes on Financial Data**

The expenditure and revenue data reported in Profiles is derived from UFARS (Uniform Financial Accounting and Reporting Standards), a system utilized by all Minnesota school districts. These data are directly comparable to that reported in the previous four editions of Profiles and are described briefly in Table 1.

**Interdistrict Cooperation**

The 1979 and 1983 Minnesota legislatures enacted laws to encourage school districts to cooperate in providing education services to their students. Prior to 1979, all school districts were required to provide a complete program for every grade - prekindergarten through 12. The new legislation recognized that smaller districts could effect

economies of scale if they were allowed to cooperate in providing educational services. There is now flexibility in how the districts may cooperate. For example, in one not uncommon scenario, students from two districts will attend one of the districts for elementary grades and the other for secondary grades. Staff from the paired districts will teach at the grade level of their certification.

Districts participating in one of these agreements are noted in the report tables by either an ICA (Interdistrict Cooperative Agreement) or ASE (Agreement for Secondary Education) in parenthesis after the district name. In 1986-87 these districts were:

#57 Beardsley
#801 Browns Valley

#58 Clinton
#60 Graceville

#209 Kensington
#265 Hoffman

#262 Barrett
#263 Elbow Lake

#328 Sioux Valley
#513 Brewster
#516 Round Lake

#341 Atwater
#464 Grove City

#409 Tyler
#584 Ruthton
#418 Russell

#413 Marshall
#415 Lynd

#424 Lester Prairie
#427 Winsted
#880 Howard Lake

#524 Halsted
#525 Hendrum

#566 Askov
#576 Sandstone

#593 Crookston
#597 Erskine
#599 Fertile
#603 McIntosh
#604 Mentor
#630 Red Lake Falls

#636 Morgan
#650 Franklin
#637 Redwood Falls
#652 Morton

#654 Renville
#655 Sacred Heart

#669 Magnolia
#670 Luverne
#697 Eveleth
#699 Gilbert

#893 Echo
#896 Wood Lake

Caution should be exercised when comparing data, especially financial data, of the cooperating districts with that from districts not involved in such agreements; interdistrict financial transfers, in the UFARS system, do not effectively relate costs to pupils served in many of these situations.

This is the third consecutive year in which the main statistical tables include data on Minnesota's two elementary-only districts (Nett Lake #707 and Winsted #427), the two districts who send all of their students to other districts (Franconia #323 and Prinsburg #815) and the Pine Point experimental district #025.

**For More Information**

Additional copies of School District Profiles, 1986-87 may be purchased from the Minnesota Documents Division at 117

University Avenue, St. Paul, Minnesota 55155 (telephone 612/297-3000); or toll free in outstate Minnesota 1-800-652-9747.

TABLE 1

## Sources of Expenditure Data for School District Profiles

**This table is intended primarily for persons who are familiar with UFARS, and who wish to examine or verify the expenditure data for a specific school district.**

**Each of the 16 expenditure categories in Profiles includes all expenditures within a defined set of funds, programs, and objects, as defined in the upper section of the table below.**

**The lower section of the table summarizes the funds, major program categories, and object categories used for profiles.**

**For a further explanation of UFARS, and for definitions of specific funds, programs, and objects, see: Minnesota Department of Education, Manual for the Uniform Financial Accounting and Reporting System for Minnesota Schools.**

| Categories Used in the Report | Funds[1] | Programs[2] | Objects[3] |
|---|---|---|---|
| 18. District and school administration | 1 and 9 | 1-99 | |
| 19. District support services | 1 and 9 | 100-199 | |
| 20. Regular instruction | 1 and 9 | 200-299 | |
| 21. Vocational instruction | 1 and 9 | 300-399 | |
| 22. Exceptional instruction | 1 and 9 | 400-499 | All objects |
| 23. Instructional support services | 1 and 9 | 600-699 | except 500-599 |
| 24. Pupil support services | 1 and 9 | 700-799 | and 910 |
| 25. Operations and maintenance | 1 and 9 | 800-899 | |
| 26. Food service | 2 | All | |
| 27. Pupil transportation | 3 | All | |
| 28. Other operating programs | 1 and 9 | 0, 500-599, and 900-999 | |
| 29. Total PK-12 operating expenditures (this is the total of categories 18 through 28) | 1,2,3, & 9 | All | |
| 30. Community service | 4 | All | |
| 31. Capital outlay | 5 | All | All but 910 and 460[4] |
| | 1,2,3, & 4 | All | 500-599 |
| 32. Building construction | 6 | All | All but 910 |
| 33. Debt service | 7 | All | All but 910 |

| [1]Funds | [2]Major Program Categories | | [3]Objects | |
|---|---|---|---|---|
| 1. General | 0 | Districtwide (no specific program) | 460 | Textbooks |
| 2. Food Service | 1-99 | District and school administration | 500-599 | Capital expenditures |
| 3. Pupil Transportation | 100-199 | District support services | 910 | Transfers to other funds |
| 4. Community Service | 200-299 | Regular instruction | | |
| 5. Capital Expenditure | 300-399 | Vocational instruction | | |
| 6. Building Construction | 400-499 | Exceptional instruction | | |
| 7. Debt Service | 500-599 | Community Services | | |
| 9. Trust and Agency | 600-699 | Instructional support services | | |
| | 700-799 | Pupil support services | | |
| | 800-899 | Sites, buildings, and equipment | | |
| | 900-999 | Other programs | | |

[4] 460, textbook expenditures have been allocated, based on program code, into categories 18-28 to assure valid inter-year comparisons.

# TRENDS & PATTERNS

This section examines a number of the more interesting facts contained in the statistical tables beginning on page 20. These include variations between districts as well as year-to-year changes in total state values.

**Number of Students**

The abrupt upturn in ADM which occurred in the 1985-86 school year continued in 1986-87. ADM increased by 9,274 or 1.3 percent (from 699,235 to 708,509). As with last year's surprise turnaround, much of this year's growth continues to be the result of movements from the nonpublic to public school sector. The reasons for this movement are not completely understood. Another portion of this year's increase resulted from a one-year change in law which resulted in an elevated count of pre-kindergarten ADM.

As always, total ADM fails to show the continuing diversity in enrollments statewide. For example, Minneapolis' ADM of 38,763 is 531 times as great as Verdi's ADM of 73. Table 2 provides another means of observing the diversity of ADM in the state. It arrays the state's districts into ten groups of similar enrollment size.

**Professional Staff**

Table 3 shows total professional staff and pupil-staff ratios for the past decade. In 1986-87, staff grew at a rate adequate enough to accommodate the increase in enrollments; the pupil-staff ratio remained unchanged. This stabilization in the ratio comes after three years of decreasing ratios. Increases in the proportion of handicapped, kindergarten, and elementary enrollments are undoubtedly a reason for the continuing low ratio as services to these groups are particularly labor intensive.

**Tax Rates**

School district tax rates continued the rapid rise which began in 1982. The 1986-87 Equalized Mill Rate of 49.73,

**Table 2**

**1986-87 Resident Average Daily Membership (ADM) for Ten Enrollment Size Groups**

| Group Number | Size Range (1986-87 Resident ADM) | Number of Districts | Total Resident ADM | Percent of State Total |
|---|---|---|---|---|
| 1. | 0 to 214 students | 45 | 7,101 | 1.0 |
| 2. | 215 to 289 students | 43 | 10,826 | 1.5 |
| 3. | 290 to 369 students | 42 | 14,011 | 2.0 |
| 4. | 370 to 464 students | 44 | 18,573 | 2.6 |
| 5. | 465 to 619 students | 43 | 23,386 | 3.3 |
| 6. | 620 to 829 students | 45 | 28,284 | 4.0 |
| 7. | 830 to 1,149 students | 45 | 41,351 | 5.8 |
| 8. | 1,150 to 1,749 students | 43 | 62,326 | 8.8 |
| 9. | 1,750 to 3,699 students | 42 | 112,558 | 15.9 |
| 10. | 3,700 or more students | 44 | 390,093 | 55.1 |
| | State Totals | 436 | 708,509 | 100.0 |

Table 3

State Totals of Professional Staff and Pupil-Staff Ratios 1977-78 through 1986-87

| School Year | Total Professional Staff | Pupil Staff Ratio |
|---|---|---|
| 1977-78 | 49,995 | 16.7 |
| 1978-79 | 49,723 | 16.2 |
| 1979-80 | 49,391 | 15.7 |
| 1980-81 | 49,444 | 15.2 |
| 1981-82 | 48,236 | 15.1 |
| 1982-83 | 44,553 | 16.0 |
| 1983-84 | 44,044 | 15.9 |
| 1984-85* | 44,744 | 15.5 |
| 1985-86* | 45,789 | 15.2 |
| 1986-87* | 46,425 | 15.2 |

*includes data for five small districts not included in prior year totals

statewide, was more than ten percent above the 1985-86 level. These recent increases resulted from a combination of two factors, 1) changes in the state PK-12 funding formulas, and 2) the approval by districts' taxpayers of referendums for additional education dedicated tax levies.

**Sources of Revenue**

Figure 2 shows the proportion of school district funds received from Federal, state and local sources during the past decade.

A fairly substantial change occurred in 1986-87 in the distribution of these sources. The proportion of funds received from state sources increased from 50 to 55 percent - the first increase since 1981-82. However, this state increase is not really significant as the state now provides school districts with additional funds which they, in turn, use to pay social security and teachers retirement benefits. In all of the discussion it must be noted that we are discussing statewide averages; the revenue proportions vary dramatically from district-to-district reflecting differences in property wealth.

**Operating Expenditures**

Operating expenditures in 1986-87 were significantly greater than in 1985-86 - 14.4 percent to be exact. However, this increase was largely illusory and again is the

result of the social security/ teacher retirement funding shift referred to previously. Beginning with the 1986-87 school year, districts are required to make social security and teachers retirement contributions previously made directly by the state. Now funds for these contributions are part of the districts' foundation aid payments from the state. If these "new" expenditures are factored out, the over-the-year percentage increase in operating expenditures was only approximately 2.0 percent rather than 14.4 percent.

**Figure 1**

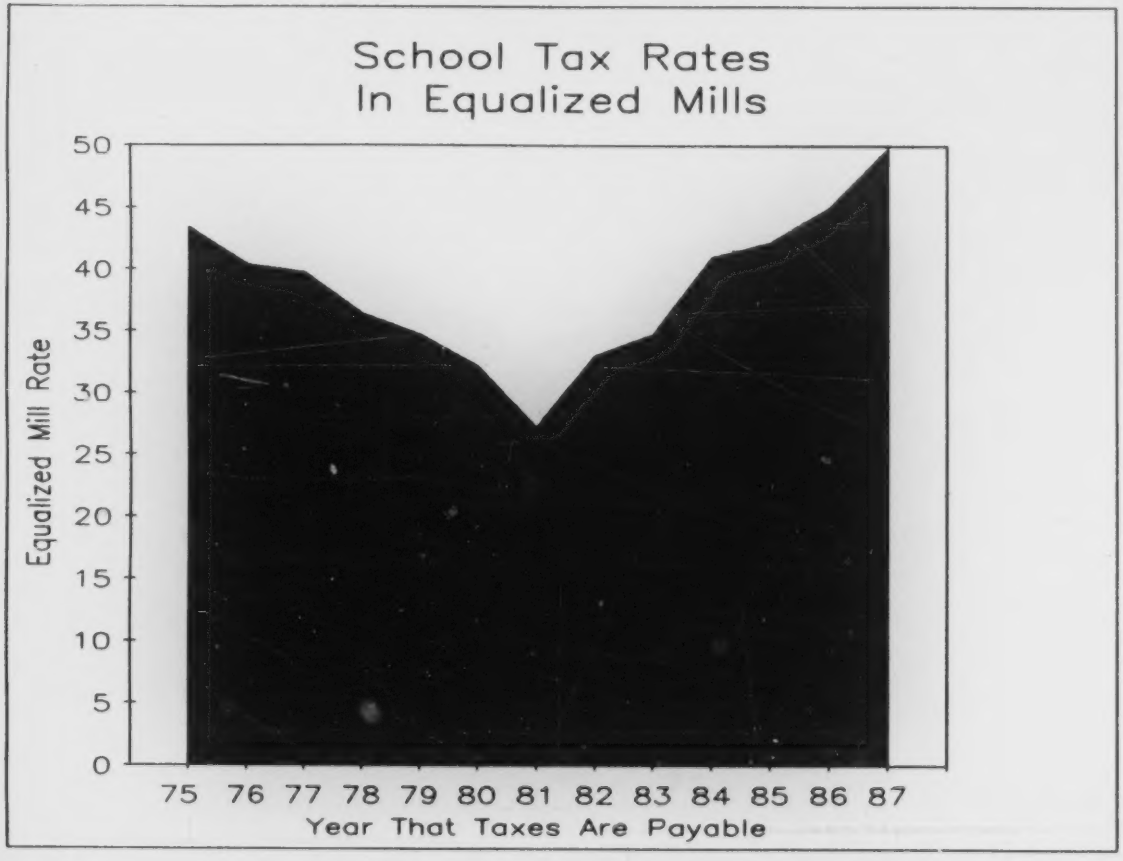

Table 4 breaks down the over-the-year increase into its constituent categories. The importance of salaries (and attendant retirement and social security contributions) is evident as many of the categories showed significant increases relating to the new contributions expended on staff assigned to these categories. The exceptionally large increase in Other Operating programs results from the practice of some districts who incorrectly reported the new contributions in this category rather than in the programs in which the appropriate salaries relate.

**Nonoperating Expenditures**

Columns 31, 32, and 33 (Capital Outlay, Building Construction, and Debt Service, respectively) could be classified as non-operating expenditures. These are fixed charges - charges which do not vary in a direct manner with changes in enrollment. Figure 3 shows how these expenditures have varied during the past decade. In 1986-87, they totaled $476 per pupil unit, or 8.4 percent greater than in 1985-86. During the past

three years, the growth has been a hefty 46.5 percent. This is undoubtedly a healthy development as national observers have recently decried the lack of school plant maintenance and an impending need for "crash" building programs.

**Community Service**

Community Service expenditures continue to grow at a dramatic rate - see Table 5. Slightly more than 400 districts provide one or more services subsumed under the Community Service umbrella. These run the gamut from the traditional offerings in remedial education and recreational activities to more recent programs in Early Childhood Family Education and Adult Handicapped Education. Much of the above noted increase is the result of these more recent additions. For example, 310 districts now have an Early Childhood Family Education program as compared to only 283 districts in the 1985-86 school year. In addition, 62 districts participated in the Adult Handicapped Education program which began in 1986-87.

**Figure 2**

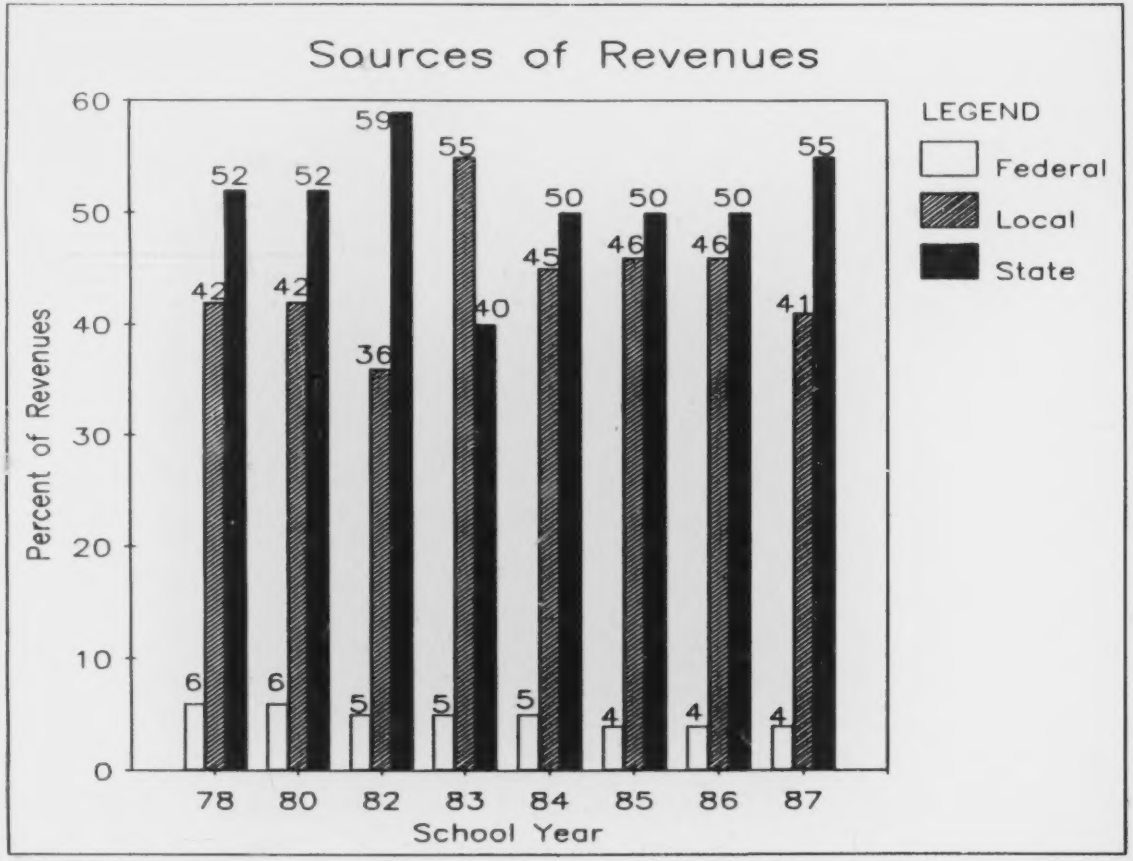

Table 4

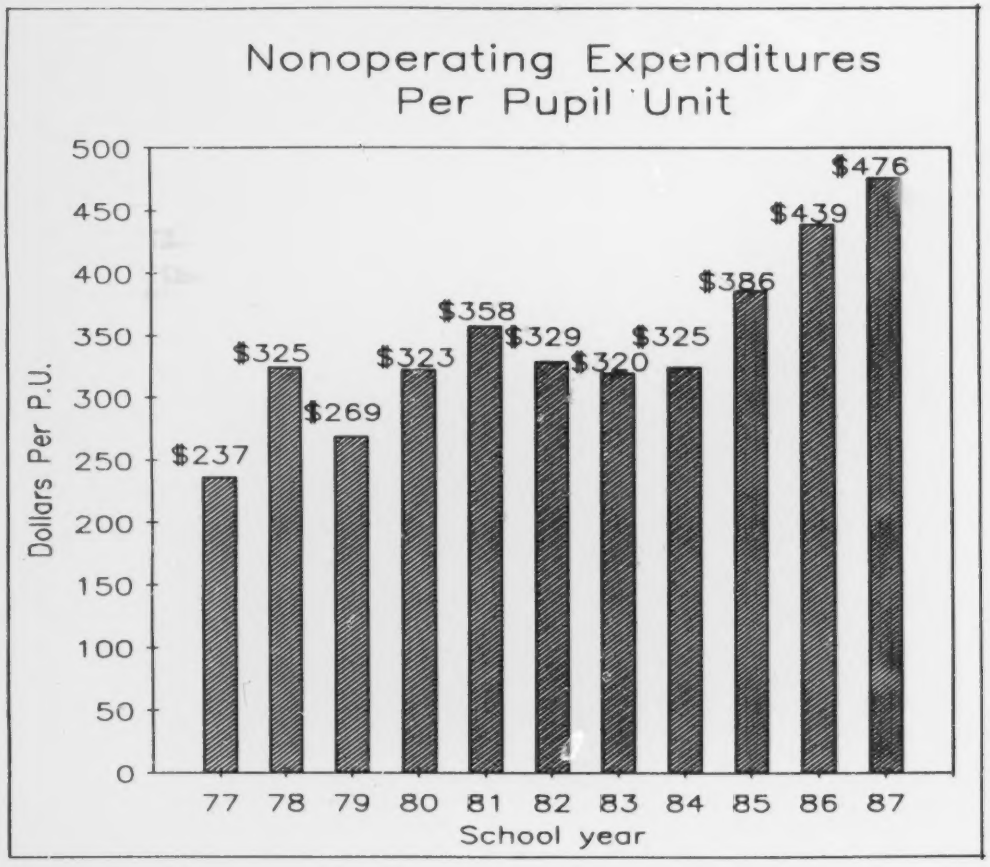
State Averages of PK–12 Operating Expenditures per Pupil Unit, 1985–86 and 1986–87

| | Category | 1985–86 Expenditures | 1985–86 % of Total | 1986–87 Expenditures | 1986–87 % of Total |
|---|---|---|---|---|---|
| 18. | District and school administration | $ 181 | 6.0 | $ 202 | 5.8 |
| 19. | District support services | 80 | 2.6 | 84 | 2.4 |
| | Subtotal, Administration | $ 261 | 8.6 | $ 286 | 8.2 |
| 20. | Regular instruction | $1357 | 44.6 | $1537 | 44.1 |
| 21. | Vocational instruction | 72 | 2.4 | 80 | 2.3 |
| 22. | Exceptional instruction | 341 | 11.2 | 396 | 11.4 |
| 23. | Instructional support services | 111 | 3.7 | 123 | 3.5 |
| | Subtotal, Instruction | $1881 | 61.9 | $2136 | 61.3 |
| 24. | Pupil support services | $ 78 | 2.6 | $ 87 | 2.5 |
| 26. | Food service | 144 | 4.7 | 150 | 4.3 |
| 27. | Pupil transportation | 208 | 6.8 | 218 | 6.3 |
| | Subtotal, Other student services | $ 430 | 14.1 | $ 455 | 13.1 |
| 25. | Operations and maintenance | $ 296 | 9.7 | $ 287 | 8.2 |
| 28. | Other operating programs | $ 172 | 5.7 | $ 321 | 9.2 |
| | **Total PK–12 operating expenditures** | **$3040** | **100.0** | **$3485** | **100.0** |

Table 5

| Community Service Expenditures Per Puil Unit | |
|---|---|
| 1976-77 | $31.00 |
| 1977-78 | 29.00 |
| 1978-79 | 35.00 |
| 1979-80 | 40.00 |
| 1980-81 | 40.00 |
| 1981-82 | 46.00 |
| 1982-83 | 51.00 |
| 1983-84 | 58.00 |
| 1984-85 | 67.00 |
| 1985-86 | 81.00 |
| 1986-87 | 96.00 |

## Figure 3



**Property Valuation**

As mentioned in the discussion of sources of revenue, the proportion of funds received from the various sources (Federal, state, and local) is largely a function of their real property wealth. Property wealthy districts are expected to provide a larger proportion of their own funds for education. Column 38 shows the equalized valuation in each school district. Districts with higher valuations also generally receive a greater proportion of their revenues from local sources (column 17) and less from Federal and state sources (columns 15 and 16, respectively).

# DEFINITIONS

The tables on pages 18 through 45 contain 38 separate statistics for each school district, county, and region in the state. Definitions of these 38 statistics are given below. All data are for the 1986-87 school year.[1]

**1986-87 Resident Average Daily Membership**

Average daily membership (ADM) is the average number of pupils in membership during the school year. Pupils need not be in attendance to be counted in ADM, but they must be in membership (i.e., currently enrolled in the district). For example, a pupil who is enrolled for the entire school year counts as 1.0 ADM; a pupil who is enrolled for exactly half the school year counts as 0.5 ADM.

The ADM counts in this report are, more specifically, counts of total resident ADM. They include all district residents who were enrolled in their home district, plus residents who were educated in other districts and for whom the home district paid tuition. Resident ADM counts are used in calculating foundation aid payments and property tax levy limitations. Resident membership includes:

1. **Prekindergarten Handicapped** -- ADM of prekindergarten students enrolled in special education programs.
2. **Kindergarten** -- ADM of students enrolled in kindergarten classes.
3. **Elementary, Grades 1-6** -- ADM of students enrolled in grades 1-6, including students in elementary-level ungraded and special education classes.
4. **Secondary, Grades 7-12** -- ADM of students enrolled in grades 7-12, including students in secondary-level ungraded and special education classes.
5. **Total** -- Total ADM of all district residents, prekindergarten through grade 12; this is the total of columns 1 through 4.

**Pupil Data**

6. **Percent Minority** -- The percentage of the district's students who are of American Indian, Alaskan, Black, Asian, or Hispanic ancestry.
7. **Percent Attendance** -- The average ratio of days attended to days enrolled, for all students in the district.
8. **Percent Transported** -- The number of resident public school students transported to and from school twenty or more days, as a percentage of the district's resident pupils.[2]

**Professional Staff**

These statistics provide information about each district's professional staff. Staff are counted in full time equivalents (FTE). For example, a full time staff member is counted as 1.0 FTE; one employed only half time is counted as 0.5 FTE. Staff counts include only elementary-secondary personnel; post-secondary personnel are excluded.

9. **Total Staff FTE** -- The total number of licensed professional staff employed by the district, measured in full time equivalents (FTE). This count includes administrators, classroom teachers, and all other licensed professional personnel.
10. **Pupil Staff Ratio** -- The average daily membership of all students (both residents and nonresidents) who were enrolled

in the school district, divided by the number of professional staff (column 9).

**Tax Rates**

These figures show the tax rates, expressed in mills, for school district property taxes payable in 1987. Taxes payable in 1987 provide revenue for the 1987-88 school year.

11. **Auditor Mills** -- The actual school district tax rate, as determined by the county auditor. If the auditor tax rate is 50 mills, then a property owner would be taxed $50 for each $1,000 of assessed value. Because of differences in local property assessment practices, comparisons of auditor tax rates among districts may not be meaningful.
12. **Equalized Mills**[3] -- This tax rate is computed by multiplying the district's auditor tax rate times the 1986 market sales ratio. The market sales ratio is the ratio of the market value as determined by local assessors, to the actual selling price of the property. Market sales ratios are compiled by the Minnesota Department of Revenue EARC Sales Ratio Unit.

    Equalized tax rates are computed to compensate for differences in assessment practices. Thus, when comparing the level of gross tax burden in various districts, these rates provide a better comparison than auditor tax rates.

**Pupil Units (Weighted ADM)**

13. **Resident Pupil Units** -- This figure is computed by applying weightings to the district's resident average daily membership (ADM), which is shown in columns 1 through 5. Each kindergarten ADM counts as 0.5 pupil units; each prekindergarten, kindergarten handicapped, and elementary ADM counts as 1.0 pupil unit; and each secondary ADM counts as 1.4 pupil units. Resident pupil units are used in calculating the district's state foundation aid payments and property tax levy limitations.
14. **Total Pupil Units** -- This figure includes the district's resident pupil units (column 13) plus the weighted ADM of two other groups of students: 1) students who reside in other districts but are enrolled in this district[4] and 2) nonpublic school students who attend the public school part-time for specific classes or services.

**Revenue Percentages**

These three columns show the percentage of each district's revenues from the federal government, the state government, and local and other sources. The percentages are based on all 1986-87 revenue reported by each district, except for proceeds from sales of real property and equipment, insurance recoveries, sales of bonds, loans, and interfund transfers.

15. **Federal** -- The percentage of revenues from the federal government, whether paid directly or through another governmental unit.
16. **State** -- The percentage of revenues from the Minnesota State government,

including foundation aid, property tax credits that are paid to the school district, and all other state payments to school districts.

17. **Local and Other** -- The percentage of revenues from local and other sources. This category includes revenues from property taxes, interest, rent, gifts, tuition and fees, sales of assets other than real property and equipment, payments from other school districts, and all other sources except for federal and state government.

**1986-87 Expenditures Per Pupil Unit**

Columns 18 through 33 show each district's 1986-87 expenditures in sixteen different categories, divided by total pupils units (column 14). Columns 18 through 30 include all expenditures for the indicated purpose, except capital expenditures.

18. **District and School Administration** -- Expenditures for the school board and for the office of the superintendent, principals, and any other line administrators who supervise staff.
19. **District Support Services** -- Expenditures for central office administration which are not directly related to instruction, pupil support (see #24), or community services (see #30). Examples include expenditures for business services, data processing, legal services, personnel office, printing, and the school census.
20. **Regular Instruction** -- Expenditures for elementary and secondary classroom instruction, not including vocational instruction (#21) and exceptional instruction (#22), and for cocurricular and extracurricular activities. Examples include salaries of teachers, classroom aides, and coaches, and expenditures for classroom supplies and textbooks.
21. **Vocational Instruction** -- Expenditures in secondary schools for instruction that is related to job skills and career exploration. Examples include expenditures for home economics, industrial, business, agriculture, and distributive education.
22. **Exceptional Instruction** -- Expenditures for instruction of students who, because of atypical characteristics or conditions, are provided educational programs that are different from regular instructional programs. Examples include expenditures for special instruction of students who are emotionally or psychologically handicapped, gifted and talented, or mentally retarded; for students with physical, hearing, speech, and visual impairments; and for students with special learning and behavior problems.
23. **Instructional Support Services** -- Expenditures for activities intended to help teachers provide instruction, not including expenditures for principals or superintendents. Examples include expenditures for assistant principals, curriculum development, libraries, media centers, audio-visual support, staff development, and computer assisted instruction.
24. **Pupil Support Services** -- Expenditures for all non-instructional services

provided to students, not including transportation and food. Examples include expenditures for counseling, guidance, health services, psychological services, and attendance and social work services.

25. **Operations and Maintenance** -- Expenditures for operation, maintenance, and repair of the district's buildings, grounds, and equipment. Examples include expenditures for custodians, fuel for buildings, electricity, telephones, and repairs.
26. **Food Service** -- Expenditures for the preparation and serving of meals and snacks to students.
27. **Pupil Transportation** -- Expenditures for transportation of students, including salaries, contracted services, fuel for buses, and other expenditures.
28. **Other Operating Programs**[5] -- Includes all operating expenditures that were not charged to any other category (columns 18-27).
29. **Total PK-12 Operating Expenditures** -- The total of the eleven preceding categories of expenditures (columns 18 through 28). This figure includes all expenditures incurred for the benefit of elementary and secondary education during the 1986-87 school year, except capital and debt service expenditures.
30. **Community Service** -- Expenditures for recreation, civic activities, adult education, early childhood education, or similar programs which are not conducted primarily for elementary and secondary students, and for noncredit summer school programs.
31. **Capital Outlay** -- All expenditures for acquisition or replacement of assets that have benefits for more than one year, except expenditures for construction of new buildings and additions (see #32). Includes expenditures for purchase of land and equipment, for remodeling and improvements to existing buildings, and for leasing of equipment and buildings.
32. **Building Construction** -- Expenditures for construction of new buildings and additions, including payments to contractors, costs of advertising for contracts, architects' and engineers' fees, costs of equipping new buildings, and all other related costs.
33. **Debt Service** -- Expenditures for repayment of long term debt (see #37), including payments of principal and interest on bonds and state loans.

**Other Measures Per Pupil Unit**

34. **Operating Funds Balance** -- This figure is a measure of the district's financial condition at the end of the 1986-87 school year, and of how much resources are available to be used in future years. It is equal to the sum of the unappropriated balances on June 30, 1987, from the four operating funds (general, food service, pupil transportation, and community service funds), excluding the amount of statutory operating debt, plus the appropriated fund balance for current use of taconite payments; this balance is then divided by 1986-87 resident pupil units (column 13).

35. **Change in Funds Balance** -- The difference between the district's operating funds balance on June 30, 1987 (see #34 above) and on June 30, 1986, divided by 1986-87 resident pupil units. This is essentially equal to the difference between the district's 1986-87 revenues and expenditures, for the four operating funds combined. Thus, a negative number indicates that the district's expenditures in the operating funds were greater than its revenues.

36. **State and Local Operating Costs** -- This figure, also called adjusted maintenance cost, is often used to compare overall costs of education among districts. It is essentially the net cost per pupil unit of education that is financed through state and local funds. It is computed as follows:

    Sum of all expenditures for current operation of the schools
    (doesn't include expenditures for transportation, community services, capital outlay - excluding textbooks, building construction, or debt service),
    Minus all revenue from the federal government,
    Minus revenue from sale of food and materials,
    Minus admission fees and gate receipts from school activities;
    This total is then divided by 1986-87 total pupil units (column 14).

37. **Long Term Debt** -- The amount of long term debt outstanding on June 30, 1987, divided by 1986-87 resident pupil units. Long term debt includes bonds and capital and debt service and energy loans from the state.

38. **1986 EARC Value** -- The 1986 adjusted assessed valuation of the district, as published by the Equalization Aid Review Committee (EARC), divided by 1986-87 resident pupil units. This figure is an indicator of the district's ability to raise revenue through local property taxes.

Footnotes, over →

1 There are three exceptions to this general rule. The two tax rate statistics (columns 11 and 12) are for taxes payable in calendar year 1987; these taxes will provide revenue for the 1987-88 school year. The EARC value (column 38) is based on property values in 1986; this figure will be used in computing state aids and tax levy limitations for the 1988-89 school year.

2 For some school districts and some categories of students, the counts of students transported were estimated.

3 For districts in the Twin Cities area which are members of a special intermediate vocational- technical district (districts 287, 916, and 917), the EARC mill rate shown in column 12 includes a small additional tax rate for the special intermediate district.

4 In computing total pupil units, students who are residents of one school district but attend school in another district are counted in both districts, if the resident district pays tuition to the district attended. In 1986-87 there were 9,800 students (12,200 pupil units) in this category. Thus the state total of pupil units in column 14 of this report includes some double counting. This measure of pupil units is used because it provides the most valid comparison with expenditures. If these students were counted only in their resident district or only in the district attended, the expenditures per pupil unit would be inaccurate in the other district.

5 Most school districts included all expenditures for employee benefits in the same UFARS programs as the employees' salaries. Thus, for example, health insurance for the superintendent is included with "district and school administration" (column 18), and benefits for teachers are included with instructional programs (columns 20, 21 and 22).

The figures listed on the next six pages are, for each county, totals for all school districts which have their central offices in the county. Totals are also listed for the state's thirteen development regions and for the entire state. Counties are listed by region, with the regions in numerical order.

The boundaries of the ECSU regions are the same as the boundaries of the development regions, with the following exceptions: ECSU region 1 contains development region 1 and 2, ECSU region 6 contains development region 6E, 6W and 8, and ECSU region 7 contains development regions 7E and 7W.

# DATA FOR ENROLLMENT SIZE GROUPS

The table below lists totals or averages for all districts in each of ten enrollment size groups, based on 1986-87 resident average daily membership (ADM). For example, group 1 includes all districts with 214 or fewer ADM, and group 2 includes all districts with 215 to 289 ADM. Each group includes approximately ten percent of the state's school districts (i.e., 42 to 45 districts).

| | | 1986-87 Resident Average Daily Membership | | | | | Pupil Data | | | Professional Staff | | Tax Rates | | Pupil Units (Weighted ADM) | |

| 10 | 3700 OR HIGHER | 2076 | 33,760 | 173,595 | 180,662 | 390,093 | 11.3 | 94.5 | 76 | 24,569 | 15.8 | 53.27 | 48.05 | 445,695 | 448,760 |

The chief purpose of this table is to permit easy comparisons of districts with similar enrollment. For example, a superintendent in a district with 600 pupils may want to examine the data for group 5 (465 to 619 ADM), to see how his/her expenditures compare with other districts that are of similar size.

# SUMMARY STATISTICS

The table below lists a variety of summary statistics for each of the 38 variables included in this report. The attendant definitions explain the meaning of these statistics.

This table may be used to better understand the distribution of a particular variable among Minnesota school districts. For example, percent attendance (column 7) varies little among districts, from a low of 89.7 to a high of 97.5. Ninety percent of the school districts are within the narrow range of 94.2 (5th percentile) to 96.9 (95th percentile).

The table may also be used to see how an individual school district compares with other districts in the state. Two examples illustrate this use of the data.

1. A district which has total K-12 operating expenditures (column 29) of $3,300 per pupil unit is very near the median value, which is $3,320. Thus, about half the districts in the state have lower and half have higher expenditures.

2. A district with total average daily membership (column 5) of 320 students is between the 20th and 25th percentiles for this variable. Somewhere between 20 and 25 percent of Minnesota school districts have fewer students than this district.

**Lowest Value** - For any specific variable, the lowest value of that variable among all 436 school districts. The table also shows the highest value for each variable.

**XXth percentile** - For any specific variable, a value chosen such that XX percent of the school districts are below the chosen value. For example, the 10th percentile for total staff (column 9) is 19; this means that 10 percent of the school districts have 19 or fewer staff members (FTE). The 25th and 75th percentile are also called quartiles; the 10th, 20th, 30th, ...through 90th percentiles are also called deciles.

**Median** - For any specific variable, a value chosen such that half of the school districts are below the chosen value, and half are above.

**State Total** - For variables 1-5 (1986-87 resident average daily membership), 9 (total staff), and 13-14 (pupil units), the state total is simply the sum of the corresponding value for all 436 districts listed in the report. For all other variables, the state total is computed as the sum of the numerators for all districts, divided by the sum of the denominators. For example, State total pupil-staff ratio =

$$\frac{\text{State total of pupils}}{\text{State total of staff}}$$

For these variables, the state total is a form of weighted average.
